Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

4. Claims 19-36 and 44-45 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claims 19-36 and 44-45 are directed to a "software product", i.e., a computer program. Computer programs fail to fit any of the four statutory classes of invention.
